Sir:

Applicant responds as follows to the Office Action mailed June 5, 2001.

AMENDMENTS

In the Specification:

1. Please delete the paragraph beginning at the bottom of page 3 and ending on the top of page 4 of the specification and replace it with the following paragraph:

-- The versatility of the system of the subject invention permits transmission of the full motion image both in real time, or as a played back recording, as well as still frames of selected images and burst modes. The burst mode is a selection of sequential still images over a selected time frame. For example, assuming a target is identified and destroyed, it may be desirable to select a sequential series of still images at specific timed intervals, e.g. every one-fourth of a second, for five
